Dear Friend,

Thank you for inquiring about Virginia Gay Nursing and Rehab. Included with this letter, you will find an Application for Admittance. After your application is processed and a bed becomes available, our social worker will contact you to schedule a home visit designed for us to become familiar with your loved one to better meet their needs. A negative TB test and a physical prior to admission will also be required. You may schedule those with your personal physician.

Residents who will be paying for nursing home services privately or who have nursing home insurance will be responsible for a deposit totaling the first months stay (or full per diem payment for desired days if desired stay is less than 1 month). Current per diem rates are \$155 for a semi private room, \$168 for a private room, and \$181.50 for a private suite. If the desired stay is a month, the total up front payment will be: \$4,650.00 for a semi-private room \$5,040.00 for a private room and \$5,445.00 for a private suite. This is required of all residents admitted to the facility who are not enrolled in the Medicaid (also known as Title 19) program. Those who are enrolled in Medicaid are responsible to pay an amount each month of their stay. This is called Client Participation and the amount is set by the Department of Human Services (DHS). It is usually \$50.00 less then the amount of the resident's social security check. Your case worker will have more information on the amount of Client Participation that is owed to the facility each month, so any questions regarding Client Participation should be directed to DHS.

Personal tours of our facility may be scheduled at your convenience. Please call me at 319-472-6280 for tour times, additional information or with any further questions. I look forward to meeting with you.

Sincerely,

Jessica Birker, RN

Nurse Manager
